[newspaper article 001.JPG](#)

Dear Mr. Blumenfeld,

This story is not on the web yet. I hope you can read this photo of the article. This was in our local Yerington paper yesterday.

Our concerns are that the cleanup the locals work out with a private enterprise will not be up to CERCLA standards.

We feel the same way about allowing NDEP to take the lead if they work out a deal with getting funding without listing.

Just wanted you to see this.

I received a copy of the letter you sent to the Gov. in response to his asking for more time and applauded the response.

Sincerely,

Peggy Pauly
